Comments: _____

The Maine Immunization Program will be distributing Influenza vaccine from Aventis this season.

The Aventis product will be in three different types of packaging:

- 10 pack .25 Pre-filled syringes and referred to as Flu-PF on your order packing invoice
- 10 pack .50 Pre-filled syringes and referred to as FLU on your order packing invoice
- 10-dose vial (10 @ .50 ml a dose) and referred to as FLU on your order packing invoice

Vaccine Accountability

Please account for the Aventis Pre-filled syringes in the **Flu-PF** column on this form.

- One .25dose syringe is accounted for as 1 dose given.

Aventis doses in vials all need to be accounted for in the **Flu** column on this form.

- One .50 dose drawn up and administered is accounted for as 1 dose given.
- .50 Pre-filled syringe also can be accounted for in this column as 1 dose given.

****FluMist can be accounted for under the Flu column.**
